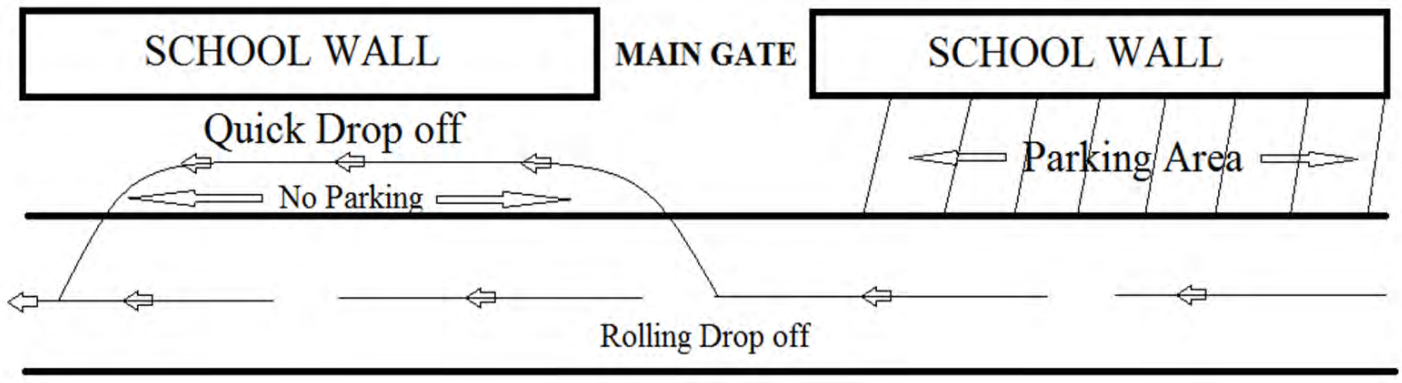
Update March 23

Drop Off and Pick Up

We have had many parents express concerns regarding the drop off and pick up of students in front of the school. We are going to try a new procedure that should make this process more efficient IF ALL PARENTS AND DRIVERS COOPERATE. If the procedure is ignored then no matter what we try will provide the desired outcome.

Option 1 – Parking – for those parents who walk their children into the school.
Option 2 – Rolling drop off – for those students who are ready to exit the vehicle without delay
Option 3 – For those who need to open the tailgate, pack or are ready for immediate exit from vehicle. Students will walk along the wall to the gate.



On another note please understand our security is here to protect your children, ignoring their requests is not at all helpful nor is it consistent with the spirit or values of our school. They will guide our traffic procedures. In addition, the guards have been instructed that the school gates will not be opened prior to 6:30 am and that no food delivery will be accepted without written notice from school administration. If you run into these issues security is following directives from the Head of School.

Telephone System

Our new phone system is now active. We have added an attendance line that can be accessed 24 hrs. It would be appreciated if you call and leave a message regarding your child's absence each time they are to be away. While calls will be answered as often as possible you are now able to leave a message and we will be sure to return your calls.

In celebration of International Poetry Day, The Grade 11 English class created a POEM HUNT for middle and high school students.
